

Parking at the Field Day site is limited. As a result, we are limiting the vehicles parked at the site to individuals who bringing heavy equipment or with physical limitations. For the rest, we recommend parking down the hill on the surface street locations shown on the map. Note: Do not park within 300 feet of the gate. There are “no parking” signs in that area and they do write parking tickets. *Note that there is usually plenty of parking along Kenbar and Rolly Drive.*

Suggesting Parking Locations

The Field Day site only has on-site space for 12 parked cars. The rest will need to park on nearby streets. Suggested locations are displayed.
